

Staff profile

Richard L Freemantle Managing Director

Over thirty years' experience and a variety of hands-on and leadership roles in electrical contracting have equipped Richard with the skills and experience to create and run the forward looking and dynamic business that is RL Freemantle Electrical. Richard leads from the front and his enthusiasm, proactivity, problem solving skills and "can do" approach runs through the entire business, forming the foundation of our ongoing success.

Richard shares his unique mix of skills and experience across the business, inspiring us all to deliver at the highest level. Having worked on large, complex, high-value projects from retail centres and multi-million pound domestic properties to prestigious hotels and the United Nations building in West Africa, there's little Richard hasn't encountered, planned, directed and managed. These assets have allowed Richard to create a sought after second tier contracting business at Heathrow, where he and his team specialise in providing no nonsense solutions on time and in budget, every time.
